

COOL TEMPERATE LIST

Autumn 2017/ Winter 2018

Tel : 0115 916 2673 / 07952 019376 phil.corbett@cooltemperate.co.uk

Postal address: 45, Stamford Street, Awsworth, Notts NG16 2QL

Nursery site: Newton's Lane, Cossall, Notts NG16 2YH

For varieties see www.frankpmatthews.com

ALMONDS – maidens £26.00

APPLES - Maidens £15.00; Maidens on M27 £17.00; Cordons £22.00; Espalier & Fan £53.00; Family Trees £49.00

APRICOTS – Maidens £26.00

CHERRIES – Maidens on Ghisela 5 £25.00; on Colt £19.00

DAMSONS, GAGES & PLUMS– Maidens on dwarfing stocks £22.00; on St. Julien A £19.00

PEARS – Maidens on quince A stock £18.00, bush £20.00

FIG – 5Litre bush £17.00 **BROWN TURKEY** the hardiest fig, brown skin, sweet red flesh

FAMILY APPLES – 3 varieties on one tree - £49.00

Cox / Fiesta / Herefordshire Russet

Bramley 20 / Christmas Pippin / Scrumptious

Cox / James Grieve / Katy

PLUM FANS £59.00

Czar – Reliable early blue fruit, cooks and eats when ripe in early August.

Herman - early blue-black plum, better flavour than Czar, ripens late July/August.

Marjorie's Seedling - quality late ripening plum, around late September, well after the Victorias.

Victoria – popular variety that eats, cooks, preserves well. Tends to overcrop and may need thinning or supports.

HAWTHORNS – **Crataegus schraderiana** – 3 year old, 2 metre tall tree in 12 litre pot. £34.00

Bare-root @ £20

C. arnoldiana

C. pinnatifida var. major 'Big Gold Star'

BERRYING BUSHES, LESS COMMON FRUITS, & MISCELLANEOUS

AKEBIA QUINATA - CHOCOLATE VINE Climber to approx 9 metres, usually evergreen, edible pulp of sausage shaped fruit, edible young shoots and can be used for basket making. Scented red-purple flowers April. Needs a pollination partner, 'Cream form' should do it
Purple form £8.00. Cream Form £18.00 . 1 of each form: £25.00 per pair

AMELANCHIERS – JUNE BERRIES

SASKATOONS – Cultivated varieties of Amelanchier alnifolia – all self-fertile and typically reaching 2-3metres @ £16.00

JB30 – juicy, flavourful, high yielding.

Martin – one of the earliest, excellent quality fruit ripening uniformly.

Northline – superb fruit quality, good yields from young plants.

Smoky – excellent sweet flavour, reliable cropper.

Thiessen – largest fruit size, early, reliable and very productive.

Amelanchier '**BALLERINA**' Tall shrub, large white blossom, good quality berries after midsummer. Grafted plants £8.00

Amelanchier '**PRINCE WILLIAM**' 2.5m tall multi-stem shrub; largest fruited of our Juneberries, with good flavour, creamy flowers. £8.00.

Amelanchier alnifolia '**Obelisk**' a fairly fastigate form of the Saskatoon, considered the best flavoured Juneberry species. £12.00

Amelanchier rotundifolia - **Snowy Mespilus** – native to Europe, multi-stemmed suckering shrub, edible berries. £6.00

Amelanchier spicata – **Garden Shadlow** – short bushy species with erect stems, white flowers April, then edible dark purple berries.

Amelanchier alnifolia '**Obelisk**' a fastigate form of the **Saskatoon**, considered the best flavoured Juneberry species. £12.00

ARONIA – CHOKEBERRIES - deciduous shrubs, attractive spring flowers, fruits rich in anthocyanins, splendid autumn colours.

ARON – shrub 1.5 to 2 metres, berries purple/black to 1 cm diameter. young plants £6.00

NERO – shrub to 2.5 metres, berries said to be sweeter than most. young plants £6.00

VIKING – shrub to 2 metres, good all-rounder.

BERBERIS B. vulgaris - Barberry - naturalised hedgerow shrub to 3 metres, with tart red berries. Much used in Elizabethan cookery. £6.00

BUDDLEIA 'Lochinch' – not edible but a great way to attract butterflies and other long-tongued insects till early autumn. Flowers violet with an orange mouth. Relatively compact variety to 2 metres. young plants £5.00.

CAROLINA ALLSPICE – Calycanthus floridus – Aromatic deciduous shrub to 2 m., dried bark as cinnamon, leaves as mothballs. £8.00

Chaenomeles japonica JAPANESE QUINCE Tolerant winter/spring flowering shrubs that crop most years. 'CIDO' or NORTHERN LEMON Bred Latvia, twice the usual pectin content and high vit C. Orange-red blossom. Compact bush to 1 metre. Grown for preserves production. £8.00

CHERRY PLUM - Prunus cerasifera - early flowering small plum, red or yellow, sharp or sweet, good for hedging. 1.5 m £5.00 each

CORNUS KOUSA CHINENSIS – **Kousa** – tall shrub liking a moist soil, fruit pulp excellent, ripens late. Young plants £8.00

***Dyer's Greenweed - 'Royal Gold'** - Genista tinctoria - ornamental cultivar of UK native dye specie, up to 75 cms, rich yellow flowers over a long season, fixes some Nitrogen, open site, will self sow. £6.00.

SEA BUCKTHORN – Hippophae rhamnoides - Spiny nitrogen-fixing shrub, to about 3 metres. Fruits extremely rich in vitamins, needs full light and good drainage.

Sexes separate - a mix needed for pollination. Use 1 male to about 5 or 6 females. All £6.00 each.

Females: **ASKOLA** – fast grower to 4 or 5 m. Abundant deep orange fruit ripening late August.

LEIKORA - sturdy branches to carry heavy crop of deep orange berries, ripening mid Sept-Oct. Pollmix 2 or 3.

ORANGE ENERGY – heavy crops, sturdy bushes, berry colour does not fade, ripens mid-late Sept. Pollmix 1.

SIROLA – only slightly thorny, early ripening, sweeter taste, easier picking, good garden variety, pollinator Pollmix 1 or 5.

Males: **POLLMIX 1** -early; **POLLMIX 3** – for Hergo & Leikora; for larger plantings use some of each.

LAURUS NOBILIS – **SWEET BAY** Young plants of this popular herb £5.00

EDIBLE HONEYSUCKLE / HONEYBERRY LONICERA kamschatica Blue sweet/sharp berries June; non-climbing small bushes. £8.00

BALALAIKA – Bush to 1 metre, sweet fruits.

BLUE VELVET – low growing bush, almost makes a good summer ground cover.

MYBERRY FARM – taller, 1.5/2m; 3cms long sweet berries.

ELDER Sambucus nigra **HASCHBERG** – very heavy cropping Austrian variety, 25 tonnes/ha, vigorous, ripening mid Sept. £7.00

BLACK LACE - divided dark purple leaved Elder with pink tinged flowers and normal fruits. £8.00

***Elaeagnus x ebbingei** – Evergreen nitrogen fixing shrub to 2m. scented flowers autumn, edible fruits spring. £6.00

***E x e. 'Limelight'** – variegated form of above and may cross pollinate with it. £8.50

***E x e. 'Macrophylla'** – large-leaved form of non-variegated ebbingei, and may cross pollinate. £8.50

Snowbell Tree – Halesia carolina – small tree with crunchy young green fruit. 12 litre pot, 2 metres tall. £34.00

NUT PINES – Pinus pinea – **STONE PINE** – the Mediterranean pine nut. Grows ok in southern UK, cones need 3 years to ripen.

All £8.00 Pinus cembra - **SWISS STONE PINE** or **AROLLA PINE** – grows well cooler areas, cones take 3 years to ripen.

HAZELNUTS – @ £15.00 Cosford

Ennis

Hall's Giant

Kent Cob

Lang Tidlig Zeller

Nottingham Cob

Webb's Prize Cob

White Filbert

BLADDERNUT – Staphylea pinnata – shrub to 2-3metres, moisture loving, nuts form inside green leafy bracts, @ £10.00

SOFT FRUIT

GRAPEVINES – @ **£12.50** **REGENT** – large blue/black berry, sweet, refreshing flavour, good autumn colour.

@ **£13.50** **TRIOMPHE** [d'ALSACE] – heavy crops of mildew-resistant black fruit, good for sunny back yards. October.

BRAMBLES, Etc. @ £9.00 **CHESTER**

LOCH TAY

OREGON THORNLESS

THORNFREE

TRIPLE CROWN

Semi-erect, thornless, crops from mid August till the frosts.

Semi-erect, thornless, better flavour than Loch Ness.

Ferny-leaved smooth stems, ornamental, moderate crops of moderate fruit.

Thornless, good quality, late variety, vigorous.

Semi-erect, vigorous, thornless, late. Good flavour.

BRAMBLE HYBRIDS BOYSENBERRY, THORNLESS Early and tasty, blackberry-like, good drought resistance and vigorous. £9.00
 TAYBERRY Thorned version of the Tayberry, thought to perform better than the thornless type.
 JAPANESE WINEBERRY Ornamental bramble with red bristly stems and orange mild fruit.
 LOGANBERRY -**THORNFREE** @£10.00 Thornless form of old favourite, makes great jam.

GROUNDCOVER RUBUS – all rooting, fruiting, and tolerating moderate foot traffic.

Chinese Bramble Rubus tricolor Vigorous evergreen groundcover bramble, bristles but no thorns, needs lots of space. Stems may pile upwards to 60+ cms if congested. Occasional mild orange fruit £6.50

Nepalese Raspberry Rubus nepalensis evergreen groundcover bramble, spreads over approx.1 metre, hardy to approx -9c., red fruit sharp but good.

Best given some shade and dislikes drought. Plant 45-60cms apart for cover. £6.50

Taiwanese Bramble – Rubus calycinoides – carpeting evergreen, plant at 60 cms apart for cover, orange fruit early summer. £6.50.

Rubus '**Betty Ashburner**' – evergreen groundcover, plant at 60-100 cms to make cover. Will fruit if planted with one of its parents - R.tricolor or R.pentalobus nearby. £6.50.

RASPBERRIES bare-root canes, £1.50 each.

ALPENGOLD – NEW primocane type – yellow berries, large and juicy, spine-free canes.

AUTUMN BLISS – primocane type – crops August onwards – heavy total crop on short canes- self-supporting in sheltered gardens.

ERIKA – NEW primocane type – red/orange fruit, excellent quality, easy picking with good shelf life.

GLEN CLOVA – Early – quality fruit, heavy crops, vigorous.

GLEN PROSEN – Mid – high quality, freezes well.

TADMOR – Late – summer type that crops very late – quality fruits.

TULLAMEEN – Late – medium/large fruit, good quality, long picking period, nearly spineless canes.

GOOSEBERRY @ £7.00

INVICTA E/Mid. Green/yellow fruit, good flavour, heavy crop, vigorous thorny bush, resistant to mildew.

HINNOMAKI RED Mid Red-fruited and disease-resistant Finnish variety.

HINNOMAKI YELLOW Mid Yellow/Green fruit, good quality, disease-resistant.

LANGLEY GAGE Mid White medium berries, superb flavour, upright bush.

LEVELLER Mid Large yellow fruit, productive and easy to grow.

MAY DUKE Early Red, smooth fruit picks June for cooking or July for eating.

PAX – Mid Few spines, red dessert berries; good mildew resistance

ROKULA – early, dark red, good flavour, mildew resistant, moderate vigour.

WHINHAM'S INDUSTRY Mid. Red berries, excellent flavour, vigorous, very susceptible to mildew, superb for wine.

WHITESMITH Mid Large white berries, excellent flavour.

XENIA – recent variety from Switzerland. Pink fruited, nearly spineless.

BLUEBERRIES: @ £9.00

CHANDLER – Very large berries, good flavour, long cropping season.

DUKE - Early - Blooms late, ripens early, does well on low-input on natural soils.

REDCURRANTS @ 6.00

JONKHEER VON TETS Very Early Heavy crops that hang well

.LAXTON'S NO. 1 Early Excellent flavour, good crops.

RED LAKE Mid Quality fruit, compact bushes.

BLACKCURRANTS@ 6.00

BALDWIN Mid Good crops, well-flavoured.

BEN CONNAN Mid Compact bushes, good yields.

BEN LOMOND Mid Good yields and flavour.

BEN SAREK Mid Large berries, compact bushes.

EBONY Mid Sweet berries.

TITANIA Mid Taller bushes, sweet berries.

JOSTABERRY @ 7.00

RUNNING ALPINE STRAWBERRY Raised by Cool Temperate. Combines summer-long cropping season of the Alpine with the vigorous runner production of the wild strawberry, making it a useful fruiting evergreen ground cover. £1.50

STRAWBERRIES: CAMBRIDGE FAVOURITE Market leader in the 60's; good flavour yield and health, but doesn't travel well.

FLORENCE – Later season to follow Cambridge, good health, good flavour, suits organic growing. Bare-root 50p each, £4.00 for 10

HERBACEOUS

ALEXANDERS – WILD SORREL -MARSH VALERIAN – BIRDSFOOT TREFOIL

Groundnut 'NUTTY' Apios americana – not a peanut but an n-fixing climber making strings of edible tubers below ground. £3.00 per tuber.

CREEPING CAMPANULA - attractive dense, low, evergreen; flowers mauve, in 2 main flushes; stands drought; all parts edible. £6.00

SOAPWORT – Saponaria officinalis – all parts contained a very gentle soapy substance. Spreads to make a dense cover 60cms tall Pink blooms.

TSI – *Houttuynia cordata* – Edible leaves on mint-like roots, ground-hugging. Likes a moist soil, Best cooked, citrusy flavour. Sold as roots.
MARSH WOUNDWORT – *Stachys palustris* – up to 100cms. edible tubers produced in the autumn, raw or cooked. Damp soils, £2.50.

NITROGEN FIXERS* - Trees, shrubs and herbs.

- **Alnus cordata* – **Italian Alder** -good on drier sites-100/150 cms £3.00
- **Alnus glutinosa* - **Alder** – native tree, for moist soils 200 cms @ £5.00
- **Alnus incana* – **Grey Alder** – 150/200cms. £5.00. Suckers when mature. £5.00
- **Alnus rubra* - **Red Alder** – moist soil, very fast growing
- **Alnus viridis* – **Green Alder** – to 2 to 3 metres – good for green manure. £5.00
- **Caragana arborescens* **Siberian Pea Tree** – Edible yellow flowers & young pods. Needs full sun & good drainage. £5.00
- **E. x ebbingei* - Evergreen nitrogen fixer to 2m. Small fragrant autumn flowers, fruits in spring. 2L £5.00
- **E x ebbingei* '**Limelight** ' variegated form of ebbingei, useful as a pollinator for other ebbingei forms. £8.50
- **E. x ebbingei* '**Macrophylla**' Large-leaved form of ebbingei, also making a larger bush.
- **Lotus corniculatus* – **Birdsfoot Trefoil** – good for poorer and drier soils, edible yellow flowers ['bacon & eggs'], for edible lawns etc. £2.50.
- **Lotus uliginosus* **Greater Birdsfoot Trefoil** – needs a moist soil, excellent wetland N-fixer, may scramble into nearby shrubs. £2.50
- **Robinia pseudacacia* – **Black Locust** – med/tall tree, very fast growing, excellent firewood, suckers freely, flowers make 'Acacia' honey. £5.00
- **Trifolium medium* - **Zigzag Clover** – similar to Red Clover but better spreader, enjoys damp and clayey soils. £2.50.
- **T.fragiferum* – **Strawberry Clover** – has rooting stems like white clover, but pink flowers, likes clay. £2.50.
- **T. ochroleucon* – **Sulphur Clover** – habit like red clover but flowers yellow, leaves greyish; likes clay. £2.50.
- **Ulex europaeus* – **Gorse** - Native evergreen spiny shrub, stands exposure and poor soil, good N-fixer, flowers all year; fire risk, £5.00

Taller trees – apart from the alders [see above] we have Cherry Plum, English Oak, Beech, Birch, and Rowan at around 150 to 200cms for collection @ £5.00.

BOOKS

RESTORATION AGRICULTURE Mark Shepard Special offer - £20.00 inc p&p.

Restoring degraded and eroding farmland in Wisconsin to something resembling the original oak savannah biome that it replaced, using productive crop trees and grazing livestock. Recommended.

THE FRUIT EXPERT DR.D.G. HESSAYON £5.99 pb. Good simple introduction & good value for money.

NUTSHELL GUIDES – concise low-cost booklets giving essential information on fruit and nuts. By Clive Simms, retired nurseryman.

GROWING WALNUTS - £2.99 32pp GROWING HAZELNUTS - £3.50 36pp

GROWING GRAPES - £3.50 40pp

GROWING BLUEBERRIES, CRANBERRIES, LINGONBERRIES - £3.50 36pp

SAVE £10 PEARS ARBURY / PINHEY WAS £19.99 NOW £9.99 103pp. 55 varieties illustrated/described plus some general background inf.

PLUMS J.ARBURY + S.PINHEY £25.00 78pp. 56 varieties described & painted and background notes.

HAWTHORNS AND MEDLARS J. B. Phipps et al. £17.99 139pp. 75 Colour plates All species and some varieties described
